

The Federal Communications Commission
445 12th Street, SW
Washington, DC 20554

Dear The Federal Communications Commission,

I urge you to reject a flat fee proposal that would change how contributions are made to the Universal Service Fund.

Under the flat fee proposal you are considering, low-volume residential customers would have the same flat fee as a high-volume residential or business customers. This will shift more of the cost of the Universal Service Fund unfairly to residential customers.

I use my wireless phone for safety, security and convenience. I don't want to pay more for these benefits so that big businesses can pay less than their fair share. I urge you to reject the proposal to move the USF collection system to a flat fee.

Keep the USF Fair!

Sincerely,

Marcia Hendrick
